

Bristol

Powered with reliable and elegant radial engine, the Bristol Scout was designed in 1913 as an unarmed single seat reconnaissance machine, but was so fast and manoeuvrable that it pioneered the concept of a single seat fighter. Bristol Scout Limited Edition watch honours this pioneering British aircraft and pays tribute to the WWI aviators. Keeping the roots of WWI wristwatch, the timepiece features a distinctive large pocket-style watch casing and a vintage way of strap attachment.

BRISTOL SCOUT

MOVEMENT

- Automatic, SELLITA SW 290-1
